

Assignment 2 - JavaScript Basics

Part A

1. Write a JavaScript program to display 'Hello, World!' on the console.
2. Write a JavaScript program to add two numbers and display the result.
3. Write a JavaScript program to check whether a number is even or odd.
4. Write a JavaScript program to find the largest of two numbers.
5. Write a JavaScript program to calculate the square of a number.

Part B

6. Write a JavaScript program to swap two numbers using a temporary variable.
7. Write a JavaScript program to calculate the factorial of a number using a loop.
8. Write a JavaScript program to print the multiplication table of a given number.
9. Write a JavaScript program to reverse a number (e.g., 123 → 321).
10. Write a JavaScript program to check whether a year is a leap year or not.
